Dr. Henry J. Heimlich
The Heimlich Institute at Xavier University
P.O. Box 8858
Cincinnati, Ohio 45204

Dear Dr. Heimlich:

Thank you for your kind letter of September 17, 1986, to Dr. Mason, Director of the Centers for Disease Control, who is presently in the Soviet Union.

You should have received by now a copy of Dr. Mason's memo to Dr. Vincent DeVita, Jr., Director of the National Cancer Institute, which we recently forwarded to you. As I indicated in my letter of September 9, 1986, we will be pleased to assist in providing appropriate strains of Plasmodium vivax and in helping you establish the necessary technology.

Please keep me informed as your plans progress.

Sincerely yours,

Robert L. Kaiser, M.D.
Medical Director
